2023 HIGHLIGHTS

Dear BronxWorks Friends and Family,

Thank you for browsing through our 2023 Report to the Community. As we reflect on the 50th Anniversary of BronxWorks, we are proud to highlight our recent accomplishments while also recognizing half a century of growth to support the Bronx community. BronxWorks, previously known as the Citizens Advice Bureau, started as a walk-in office to provide assistance with eviction prevention and access to benefits for Bronx older adults. Since our inception in 1972, BronxWorks has continued to expand with the needs of the community and help individuals and families improve their economic and social well-being. From toddlers to seniors, we feed, shelter, teach, and support our neighbors to build a stronger Bronx community.

In our 50th year, the organization served more than 64,000 Bronx residents from over 60 locations with 1,000+ staff throughout the borough. We kicked off this milestone with a reception in December 2022 and continued the celebration throughout 2023 with our 50th Anniversary Gala, BronxWorks Day, the reopening of the BronxWorks Pool, and many more incredible events. To share just a few of our accomplishments from 2023: our eviction prevention programs supported 6,929 individuals and 507 households with rental arrears to remain stably housed; we engaged 9,644 people in healthy eating and nutrition activities; a total of 614 students received assistance with the transition from high school to college, and 1,742 youth were placed into internships or summer jobs; our Access to Benefits programs offered assistance to over 1,690 people that led to the acquisition of public benefits worth \$2,043,513.

In addition to reflecting on our accomplishments, we also reflected on the rich history that led the organization to be what it is today. Our work is made possible by the leadership of the Board of Directors, the invaluable commitment of our staff, and the engagement we receive from foundations, corporate partners, individual donors, community leaders, and countless other stakeholders.

Thank you for reading this issue of our Report to the Community.

BRONXWORKS 50TH ANNIVERSARY

BronxWorks kicked off our 50th Anniversary celebrations on December 7, 2022 with a special event at the Hard Rock Cafe Yankee Stadium. The event brought together friends, staff, board members, and community leaders to commemorate half a century of serving the Bronx. Guests mingled and enjoyed dinner together as they reflected on the evolution of BronxWorks from our beginnings as the Citizens Advice Bureau in 1972. This event marked the beginning of a year of celebration, and the organization continued to honor this milestone anniversary throughout 2023 with events such as our 50th Anniversary Gala and BronxWorks Day.

BRONXWORKS DAY

BronxWorks held the BronxWorks Day Celebration in September of this year! Long-term partners, stakeholders, community leaders, and friends gathered for the three-part event that included the long-awaited ribbon cutting for the newly renovated indoor pool at the Carolyn McLaughlin Community Center (CMCC), a tour of select BronxWorks offices and locations, and an evening cocktail reception in the CMCC gymnasium. Thank you to all who celebrated BronxWorks Day with us and experienced a glimpse of some of the services BronxWorks provides every day!

BRONX POINT RIBBON CUTTING

BronxWorks participated in the ribbon cutting ceremony at the Bronx Point development project in October of 2023. Home of The Hip Hop Museum, Bronx Point is a multi-use development project that includes affordable housing units, public space components, retail space, and more. The ribbon cutting ceremony marked the opening of 542 housing units and waterfront park space open to the public. BronxWorks will provide social services, including on-site supportive housing and an Early Childhood Learning Center, to residents of Bronx Point. BronxWorks is proud to contribute to transformative community developments alongside our amazing partners as we work to build a better future for the Bronx.

BronxWorks is thrilled to offer swim lessons and aquatics programs to our communities, and we partnered with Asphalt Green and Physique Swimming to help us get people back in our pool and learn the vital skill of swimming. Physique Swimming provides swim lessons to BronxWorks programs and offers classes open to the public throughout the week. BronxWorks is incredibly thankful to our partners for their assistance in providing one of the few community swimming resources in the area to our Bronx neighbors.

SYEP [and other youth workforce programs] impart those skills and experiences on youth at a very early age. When they are adults looking for jobs, they already have an understanding of what it takes.”

—ShaQuanna Cody-McGrew,

Program Director, BronxWorks Youth Workforce Programs

BronxWorks Supports the #JustPay Movement

BronxWorks united with our partner and colleague organizations throughout the City on the #JustPay Campaign. Spearheaded by Human Services Council (HSC), the #JustPay Campaign is a movement of nonprofit services workers, leaders, policy experts, community members, elected officials, and other supporters fighting for livable wages for human services workers.

On **May 25, 2023**, over 500 BronxWorks staff joined with over 5,000 nonprofit human services workers from dozens of organizations for a "Day Without Human Services" #JustPay rally. BronxWorks and other New York City nonprofits closed most of their programs for a day and rallied at City Hall to demand New York City Mayor Eric Adams add a COLA (cost of living allowance) and multiyear compensation plan for nonprofit human services workers into the FY24 New York City Budget.

Nonprofit human services workers are among the lowest paid in the city, making about 71% of what government employees make for the same role.* The low pay grade is frequently written into the city contracts that fund the programs.

The human services contract workforce employs over **80,000 workers** and is staffed predominately by **workers of color (75%) and women (70%)***.

Women of color constitute 55% of this workforce, and roughly two-thirds of all full-time human services workers had earnings below the City's near-poverty threshold.*

On **June 22**, hundreds of human services workers once again descended on City Hall as City budget negotiations came to a close on July 1. Multiple City Council members, including Speaker Adrienne Adams, Deputy Speaker Diana Ayala, and Council Member Althea Stevens, joined in calling on Mayor Adams to add the COLA and multiyear plan for nonprofit human services workers into the City budget. The rally followed an overnight rally where executive directors and executive staff camped out near City Hall all night. BronxWorks Chief Financial Officer Gordon Miller represented the organization. BronxWorks wants to thank Michelle Jackson, Executive Director of HSC, for her leadership throughout this campaign.

We are pleased to say that in March of 2024, Mayor Adams and the New York City Council announced that the City budget will include a 9.27% COLA for human service workers over the next three years!
